1. Coronaviruses are zoonotic, meaning they are transmitted between animals and people.
2. Common signs of infection include respiratory symptoms, fever, cough, shortness of breath and breathing difficulties. In more severe cases, infection can cause pneumonia, severe acute respiratory syndrome, kidney failure and even death.
3. Covid 19 has a low vibration with a closed electromagnetic structure, with a resonance frequency of about 5.5 hz to 14.5 hz. This means, in higher frequency range it cannot be active or survive per say above 25.5 hz.
4. The virus normally attacks lungs, respiratory system, kidney and liver in few cases.
5. The way to come out of virus infection is by boosting your immune systems through food or through natural energy healing methods. Visit our website to understand more about bosting it naturally or through food consumption.
6. Wearing mask can't protect your Covid 19 going inside your body or coming out of body. (both inhale or exhale functions).
7. If it is a virus then it is smaller than bacteria. They aren't even full cell. They are simply genetical material (DNA or RNA) packaged inside of protein coating.
8. COVID 19 range in 80 to 120 nano meter in diameter.
9. According to Italian research team based on Autopsy conducted on COVID 19 CORPSES, covid 19 is a bacterium manually made with 5g amplified radiation causing a disease called "thrombosis" which can be healed through anti-coagulant medicines or through natural energy healing methods like Reiki, Mexican healing and crystal heling methods.
10. The biggest risk we have today is that every country hospital and doctors treat COVID 19 Crisis with different type of medicines (Vitamin c, paracetamol, aspirin, etc.). It can be healed through anti-coagulant medicines.
11. The risk of Covid 19 is about it's thrombosis effect. How your healer or doctor can heal clotting effects? If there is any delay in healing this disease, patient may die immediately with heart attack, lungs seizure, brain clot, kidney failure, breathlessness etc. This is one of the reason people suffering from prevailing chronic diseases or weaker immune system fail to cope up with bacterial infection/ virus attacks.
12. Based on Research study in New York City Hospital, survival rate of the patient's put in ventilator is just 10%. 9 out of 10 patient's died by undergoing treatment in ventilator). You need to be careful when your relatives suffer from breathing difficulties. Normally, doctors in hospital try to put the patient in ventilators.
13. According to "Heal The Word" Top 10 Innovative Heath Care Team based in India, only Reiki Energy healing can heal patient's suffering from breathing difficulties during the emergency crisis. 15. It hardly takes 45 minutes to 1-hour of time healing time to heal covid 19 virus/bacteria through energy healing methods. Send your queries to [contact@healtheworld.in](mailto:contact@healtheworld.in)
16. To all diabetic patients, their glucose level shoots up as soon as infections hits your body and same case with cancer patients that their cancer cells will grow faster and body immune system shuts immediately. This is same for people who suffer from other chronic diseases such CKD, HBP, Liver disease, lungs disease or respiratory diseases.
17. The death rate of the covid 19 is very minimal and there is no need to get panic.
18. Staying home is not the solution. People needs to be aware more about their immune system and find out how they can make boost it rather than spending money on mask, sanitizer, etc.
19. Stop taking or reduce alcohol intake, drugs and smoking.
20. The only way to combat covid 19 programming your subconscious mind with the positive thoughts. Read my article on how to program subconscious mind and what are the various methods available to program your subconscious mind.
